

AVIÓN

We achieve our crisp, smoothy complex flavor by only using 32% of our distillate from the highest elevations.

AVIÓN SILVER is the purest expression of our hand selected agaves from the highest elevations, harvested in their peak maturity. These precious agaves are then slow roasted in brick ovens for three days to bring out richer flavors. We finish by double-distilling in small batches to create the purest quality tequila. This is the meticulous process that goes into crafting our award-winning and elevated ultra-premium tequila. Discover in this tequila crisp hints of grapefruit, pineapple and black pepper.
